NEWSLETTER 2

AUTUMN 2018

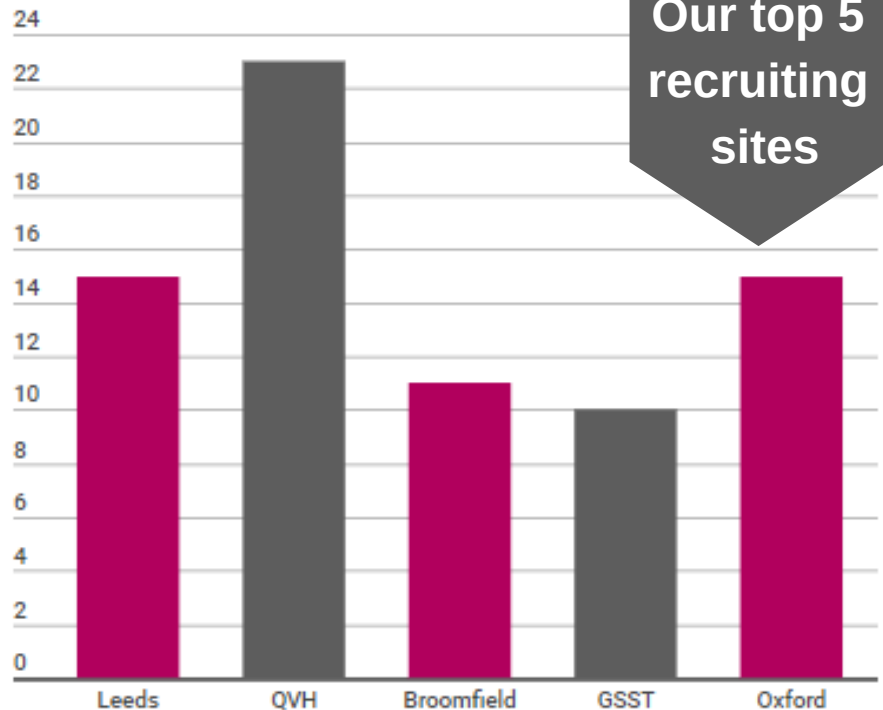

- Remember to submit your screening logs at the end of the month!
- Also when asking for new staff on RRAMP - don't forget that we need a copy of the updated delegation log!

NINJA IS LIVE!

Thanks to all the hard work of the clinical and research teams in our sites up and down the UK, NINJA finally went live on 9th July 2018!

Please keep recruiting and talk to your colleagues about NINJA, we have about a quarter of our cohort needed and are just starting the final follow up of our first participants!

Recruitment stands just shy of 100 participants and we are 4 weeks ahead of our predicted recruitment target! We are about to become the largest paediatric hand surgery RCT in the UK but we need your continued help to do it! Your NINJA points are being counted and will be how you get your contribution reflected on any subsequent publications from the NINJA trial team.

Our top 5 recruiting sites

NINJA POINTS SUMMARY - you need 8 points to get onto the publication
Site set-up - **5** Recruitment - **2** Randomisation & operation - **1** Follow-up - **1**

Keep in touch!

If you or one of your team has questions, queries or concerns, please don't hesitate to email or call Amy on 01865 227715

Don't forget - Winter BAPRAS meeting, QEII Centre, London 28-30 Nov

Want to be a photo reviewer for NINJA?

Photo reviewers will make blinded assessments of the participant submitted photographs, and will automatically become authors on the resulting paper. If you're a clinician, email us to apply!
